DOCKET ROOM

Chairman Sara Kyle Tennessee Regulatory Authority 460 James Robertson Parkway Nashville, TN 37243-0505

Dear Chairman Kyle,

Pursuant to the provisions of the Performance Based Ratemaking Mechanism approved by the Tennessee Regulatory Authority's January 8, 2002 Order in Docket 01-00619, Chattanooga Gas Company (CGC) is filing the annual report of actual gas cost and the applicable index cost for each month of the plan year ended June 30, 2002 (Attachment A). As shown on Attachment A, the commodity cost of gas purchased by CGC during the plan year was approximately 1.6% below the index cost and the commodity cost did not exceed the benchmark cost by more than 2% during any month.

During November 2001, CGC entered into a cost-less collar agreement that capped the price that would be paid for portion of gas requirements for December 2001-March 2002. Because the collar represents a financial instrument to hedge gas prices and not to physically deliver gas we have not included it in the commodity or index cost of gas as shown on Attachment A.

For Authority's convenience, spreadsheets showing the volumes of gas, the indices, and the purchase prices for each month and each day are provided as Attachments B & C respectively.

Should there be any questions, I will be pleased to discuss this filing in further detail with you.

Sincerely,

Archie Hickerson Manager-Rates
